Why contractors switch to it

- **Built by a contractor, for contractors** — it works the way you work.
 - **Nothing to learn** — if you can take a photo and talk, you can use it.
 - **It gives you time back** — 10–15 hours a week off the kitchen table.
 - **It makes you look professional** — quotes, invoices, and notes that win trust and referrals.
 - **Payments run through Stripe** — card numbers never touch the app.
-

Try it free — 5 quotes, no card needed.
